

# Daniel kipish

## software engineer

I am proficient in a range of front-end technologies, such as HTML, CSS, JavaScript, and React, and have worked with frameworks like Angular and Vue.js. I am experienced in building responsive and user-friendly interfaces, optimizing performance, and ensuring compatibility across different browsers and devices. I have a strong understanding of UI/UX design principles and am able to collaborate effectively with designers and back-end developers to deliver seamless user experiences. I am also passionate about staying up-to-date with the latest trends and technologies in the frontend development industry, and am always looking for opportunities to expand my skillset and improve my craft.

## WORK EXPERIENCE

### Front-end developer

#### Sumo Computers

05/2022 - 09/2022

Nairobi, Kenya

##### description

- Developed responsive web applications using HTML, CSS, and JavaScript to ensure cross-browser compatibility
- Integrated RESTful APIs to fetch and display dynamic content on web pages
- Collaborated with UX designers to create user-friendly interfaces and implement animations and interactive features
- Implemented front-end frameworks such as Angular, React, or Vue.js to enhance the scalability and performance of web applications

### Front-end developer

#### washikadau

10/2023 - 02/2024

Mombasa, Kenya

##### description

- Led a team of developers in the redesign of a complex web application, resulting in a 30% increase in user engagement and a 20% decrease in load times
- Implemented best practices for responsive design and accessibility, ensuring a seamless user experience across all devices and platforms
- Collaborated with UX/UI designers to translate wireframes into interactive prototypes, utilizing advanced CSS and JavaScript techniques
- Mentored junior developers in coding standards and best practices, fostering a culture of continuous learning and improvement within the team

### Web full-stack developer

#### Ihousedesign

03/2024 - 05/2024

freelancer, Canada

##### description

- Conducted code reviews and performance audits to optimize website performance and maintain high standards of code quality and efficiency
- Implemented responsive front-end designs using HTML5, CSS3, and JavaScript, utilizing frameworks like React and Angular to enhance user experience
- Utilized SQL and NoSQL databases such as PostgreSQL and MongoDB to store and retrieve data, implementing optimized queries for improved system performance

## SKILLS
